

## THEY SHOULD NOT REMAIN UNPUNISHED

The editorial board has at its disposal enough reliable evidence for the below list on which names of people appear, who actively participated in the mass murder of the peaceful citizens of Khojali in the territory of the former Nagorny Karabakh Autonomous Region of Azerbaijan. This data is received from non-official sources, including eyewitnesses of the tragic events and independent experts. Although the events in Khojali, which took place on the night between 25th and 26th of February 1992, have all the significance, which allows them to be categorised in agreement with international juridical documents defining the crime of genocide, but because of the strength of the scarcity of concrete data about concrete participants, and also circumstances of political order the people connected with our list all still avoid justice. Nevertheless, on the basis of data already available the law enforcement organs of Azerbaijan have put together a list of the suspects of war crimes and crimes against humanity and have sent it to Interpol for the declaration of an international search. At the same time the current list appears incomplete it has sufficient reasons for including in it some people who have after wards been engaged in high public posts. They are for mer and present presidents of Armenia Robert Kocharian and Serzh Sarkisian, the present Minister of Defense Seyran Oganian and some others. We, like the whole Azerbaijani public, believe that not long from this day, when all those guilty of the monstrous reprisals on guiltless people will appear in court and will suffer their deserved punishment.
